Why writing is important?

Science: “... **science consists in grouping facts so that general laws or conclusions may be drawn from them.**” ¹

Fig.: Charles Darwin (1809 – 1882).

¹<https://www.biographyonline.net/scientists/darwin-quotes.html>

Why writing is important?

Research = Re + search

- Scientific research is a process of creating, reorganizing and updating knowledge, as well as creatively using knowledge in new domains.
 - Novelty: creating > updating > use in new domains
 - Re-reorganizing: review paper

Why writing is important?

Academic paper: " ... contains **original research results or reviews existing results**. Such a paper ... will only be considered valid if it **undergoes a process of peer review** by one or more referees (who are academics in the same field) who check that the content of the paper is suitable for publication in the journal."

2

Why writing is important?

Not only for the community, but also for your career

- Writing ability is obviously important for research jobs
- The ability of writing is also essential for other jobs
 - Ability to propose a new project
 - Ability to arrange research plan
 - Ability to justify results
 - A tiny project to mimic your career development

What's Academic Misconduct?

中华人民共和国教育部
Ministry of Education of the People's Republic of China

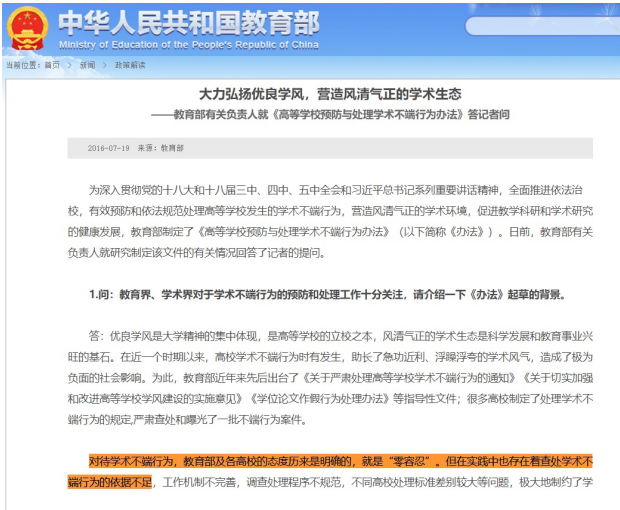

当前位置: 首页 > 公开

信息名称: 高等学校预防与处理学术不端行为办法
信息索引: 360A02-03-2016-0018-1 **生成日期:** 2016-06-16 **发文机构:** 中华人民共和国教育部
发文字号: 中华人民共和国教育部令 **信息类别:** 部门规章
第40号
内容概述: 《高等学校预防与处理学术不端行为办法》经教育部2016年第14次部长办公会议审议通过,自2016年9月1日起施行。

高等学校预防与处理学术不端行为办法

中华人民共和国教育部令 第40号

http://www.moe.gov.cn/srcsite/A02/s5911/moe_621/201607/t20160718_272156.html

The screenshot shows the official website of the Ministry of Education of the People's Republic of China. The header includes the national emblem and the ministry's name in Chinese and English. Below the header, there is a navigation bar with the current page location: '当前位置: 首页 > 新闻 > 政策解读'. The main content area features a title '大力弘扬优良学风, 营造风清气正的学术生态' and a subtitle '——教育部有关负责人就《高等学校预防与处理学术不端行为办法》答记者问'. The article is dated '2016-07-19' and sourced from '教育部'. The text discusses the implementation of the 'Measures for the Prevention and Handling of Academic Misconduct in Higher Education Institutions' and includes a Q&A section. A highlighted sentence in the text reads: '对待学术不端行为, 教育部及各高校的态度历来是明确的, 就是“零容忍”。但在实践中也存在着查处学术不端行为的依据不足, 工作机制不完善, 调查处理程序不规范, 不同高校处理标准差别较大等问题, 极大地制约了学'.

教育部：“对待学术不端行为，教育部及各高校的态度历来是明确的，就是“零容忍”。但在实践中也存在着查处学术不端行为的依据不足...”

Consequences of Academic Misconduct?

Fig.: A nuclear attack on academic reputation(Fig. source ³).

³https://www.sohu.com/a/293420614_612679

<https://history.ifeng.com/c/7zDYEZ8PkDU>

Academic Misconduct

"... any action or attempted action that may result in creating an unfair academic advantage for oneself or an unfair academic advantage or disadvantage for any other member or members of the academic community" ⁴

⁴<https://gsi.berkeley.edu/gsi-guide-contents/academic-misconduct-intro/>

Academic Misconduct

Basic principles of academic behavior

- **Respect** intellectual property!
- Proper **citations**!
- Have **your own** contribution!
- Respect **original** source!
- DO NOT seek **improper interests**

Academic Misconduct

Typical academic misconduct behavior

- Plagiarism, including self-plagiarism
- Tampering the data
 - Using modified or selected data → change the interpretation
 - Tampering with others' academic achievements
- Improper authorship
- Duplicate submissions

Improper authorship

- Exclude authors made **substantial contributions**
- Include authors haven't made substantial contributions
- Include authors without their consent
- Authorship must be authorized
- Author ranking is inconsistent with their contrib.
- Fake info: author's title, organization, educational background, research experience, *etc.*

Duplicate submissions

Submit the same or slightly different papers

- to multiple journals simultaneously.
- to new journal before withdraw or receiving decision.

Journal extension must be given with

- clear explanations and citations
- enough new contents

Factors Contribute to Academic Misconduct⁵

- Ineffective Study Habits
- Ineffective Time Management Skills or Overload
- Psychological Factors: e.g. unrealistic expectations of themselves
- Not Knowing the Boundaries
- Never simply copy & past (e.g. sentence, code)

⁵<https://gsi.berkeley.edu/gsi-guide-contents/academic-misconduct-intro/factors/>

Plagiarism

- "Plagiarism is defined as the use of intellectual material produced by another person without acknowledging its source."⁶
- Why it is important?

⁶<https://gsi.berkeley.edu/gsi-guide-contents/academic-misconduct-intro/definitions/>

Causes of Plagiarism⁷

- Low Confidence in Writing Skills
- Unrealistic Expectations about Writing
- Poor, Careless, or Passive Note-Taking

⁷<https://gsi.berkeley.edu/gsi-guide-contents/academic-misconduct-intro/plagiarism/>

Causes of Plagiarism⁸

- Citation is Difficult
- Citation is Done During Editing
- Paraphrasing is Just Rewriting
- You Will Get Expelled if You Plagiarize Even Once

⁸<https://www.turnitin.com/blog/5-most-common-misconceptions-students-have-about-plagiarism>

How to make reference?

Respect/protect the credit of the original source.

- DO NOT interpret out of context
- Limited to the necessity of argumentation
- As far back as possible to the original author
- References to unpublished work should be authorized
- References to oral presentation should be proofed
- References should be accompanied by obvious signs
- Cite peer-reviewed journal paper if possible
 - Journal > Conference > arXiv

How to make reference?

Proper references

- Missing related references
 - Intend to avoid comparisons
 - Pretend to be innovative
- Avoid fake reference: too many improper citations
 - Citations to unrelated paper of your friends
 - Citations to material that you don't really familiar
 - Self-citations to unrelated paper
 - Indirect reference to prior work

Avoid self-plagiarism

Duplicate or multiple publication

- Reuse similar or duplicate content for a new paper without proper reference.
- Copyright violation
- Make proper citation in journal extension

Example in Tsinghua

- Is an additional Master degree helpful or harmful?
- The change in the rule
- Should be avoid with caution

Not all academic misconducts are intended!

How to recognize plagiarism?

Does the student version <i>borrow ideas from someone else's original source material</i> ?			
Yes		No	
Is at least one idea taken from the original source a <i>direct word-for-word quote of 7 or more words</i> ?		<p>Not plagiarism:</p> <p>No word-for-word and no paraphrasing plagiarism is present.</p> <p>Thus, the writing must be common knowledge or the writer's own ideas.</p>	
Yes	No		
Is the <i>direct word-for-word quote</i> <i>missing any of the following</i> : <ul style="list-style-type: none"> • <i>quotation marks</i> • <i>full in-text citation that includes a specific locator</i> • <i>reference?</i> 		Is the <i>paraphrased idea</i> <i>missing any of the following</i> : <ul style="list-style-type: none"> • <i>in-text citation</i> • <i>reference?</i> 	
Yes Word-for-word plagiarism	No Not word-for-word plagiarism	Yes Paraphrasing plagiarism	No Not paraphrasing plagiarism

Fig.: Criteria used for Indiana University: <https://plagiarism.iu.edu/IUcriteria.html>.

Academic misconduct vs. criminal offence

Academic misconduct

- Lifetime punishment
- Self proof

Serious criminal offence

- Severe punishment
- Presumption of innocence

Provide evidence for yourself!

Similar ideas are likely to occur

Q: How to prove yourself?

Good habit to avoid academic misconduct ⁹

- Trustable Evidence:
 - Formal records with trusted time stamp.
 - E.g., private GitHub/Overleaf prjt., & emails
- Open source
- Safe co-authors

⁹<https://mmcheng.net/ami/>

Good habit: importance of formal records

Example: (Liu *et. al.* NPAR'17) vs. (Liao *et. al.* GitHub'17)

- Similar ideas are highly likely to occur.

Depth-Preserving Style Transfer, Ruizhi Liao, GitHub, 2017

Depth-aware Neural Style Transfer, Xiao-Chang Liu *et. al.*, NPAR, 2017.

- Similarity: core idea, equation, pipeline figure, paper structure, use (Chen, *et. al.*, NIPS 2016) for depth estimation.
- Reason: both work follow (Johnson *et. al.* ECCV'16)
- Proof: Lots of records for email discussion, inter-media results, *etc.*
- Good habit: private GitHub/Overleaf prjt., and emails.

Keep your mind: what is really important?

- More CVPR papers?
- More citations?
- What problem you have solved?

#papers → EI → SCI → ESI → Representative

Assessments will be more reasonable!

Case study 1: Piero Anversa ¹².

Harvard and the Brigham recommend 31 retractions for cardiac stem cell work

Retraction Watch readers may be familiar with the name [Piero Anversa](#). Until several years ago, Anversa, a scientist at Harvard Medical School and the Brigham and Women's Hospital, was a powerful figure in cardiac stem cell research.

Piero Anversa

"For ten years, he ran everything," says [Jeffery Molkenstin](#), a researcher at Cincinnati Children's whose lab was among the first to question the basis of Anversa's results in a [2014 paper in Nature](#).

[HTML] [Bone marrow cells regenerate infarcted myocardium](#)

..., B Nadal-Ginard, DM Bodine, A Leri, P **Anversa** - Nature, 2001 - nature.com

Myocardial infarction leads to loss of tissue and impairment of cardiac performance. The remaining myocytes are unable to reconstitute the necrotic tissue, and the post-infarcted heart ...

2.2 Spring Boot 技术

Spring 框架是 Java 平台上一种应用框架，Spring 框架具有面向切面编程（AOP）框架，Spring AOP 框架是基于代理模式的，同时运行时可配置，AOP 框架则主要是针对模块之间的交叉关注点进行模块化。基于 Spring 的优秀特性，设计出了一种 Spring Boot 框架。Spring boot 框架中有两个我们非常实用的策略，第一个是开箱即用（Outofbox），在开发过程中，通过在 MAVEN 项目的 pom 文件中添加相关依赖包，然后使用对应注解来代替繁琐的 XML 配置文件。（重复文献是 201600114221_翟志斌_大学本科毕业论文 翟志斌-《大学生》重复原
