Call for Global Top Talents

Recruitment Information of Nankai University

Located in Tianjin, China on the border of the sea of Bohai, Nankai University dates back to 1904 with Mr. Yan Xiu and Mr. Zhang Boling' s initiation of the concept of saving the nation through education. Founded in 1919, Nankai University is one of the most renowned and prominent universities. During the development of more than 90 years, Nankai University has been following the motto of *"dedication to public interests, acquisition of all-round capability and aspiration for progress with each passing day"* , persisting in its glorious tradition of *"patriotism, dedication, innovation and love of the community"* and the concept of *"govern the country with arts, strengthen the country with science and enrich the country with business"* . With the objective of *"knowing China and serving for China"* , Nankai University dedicates to cultivating talents, promoting academic prosperity, strengthening the nation' s power and inheriting civilization, and has obtained remarkable achievements.

Nankai University is a key multidisciplinary "985" and "211" Projects university directly under the jurisdiction of the Ministry of Education. It features a balance between the Humanities and the Sciences, a solid foundation and a combination of application and creativity. The University has 22 colleges, covering literature, history, philosophy, economics, management, law, science, engineering, agriculture, medicine, education and arts. Nankai University has been establishing its discipline system in accordance with the needs of economic and social development as well as talents cultivations, and offers 80 undergraduate programs. There are 6 first-level national key disciplines—Theoretical Economics, Applied Economics, History, Mathematics, Chemical Science and Optical Engineering, and 44 second-level national key disciplines. According to ESI statistics in September 2013, our 9 disciplines ranked world top 1%, including chemistry, mathematics, material science, physics, engineering, environmental science, agriculture, clinical medicine, biology and biological chemistry.

Nankai University is famous for its excellent school spirit, attaching great importance to the students' development of all-round capabilities, constantly strengthening their comprehensive quality and innovation ability, and creating an elegant and colorful campus culture. Nankai University has established cooperative relations with more than 300

international well-known universities and academic institutions, launched a number of high-level overseas training programs, and attracted a batch of world-renowned scholars, statesmen and entrepreneurs to give lectures and conduct research cooperation at Nankai University, ensuring the constant enhancement of the international level of teachers and students. With solid knowledge foundation, comprehensive quality, pioneering spirit and practice ability, students of Nankai University have received acknowledgement from all walks of life in China. Among them, late Premier Zhou Enlai, Dr. Shiing-shen Chern, Dr. Ta-you Wu, playwright Cao Yu and Dr. Guo Yonghuai are the outstanding representatives of our alumni.

With the support of Ministry of Education and Tianjin municipal government, the Jinnan new campus of Nankai University is under construction right now. This grand campus is the extension of the present university, with total construction scale of 1.5 million square meters to accommodate 37,000 students. The new campus sets new, applied and inter-disciplines and sets aside College of International Cooperation. In September 2015, 15 colleges of about 13,000 students will move into the new campus such as Faculty of Philosophy, Zhou Enlai School of Government, College of Finance, College of Tourism and Service Management, College of Environmental Science and Engineering, School of Medicine, College of Computer and Control Engineering, etc. The administration and service departments will also move in at the same time to establish a modernized and comprehensive campus with vigor and vitality.

Talents play a crucial role in higher education reform and development and are essential for building a world class university. With an open mind, effective measures and flexible mechanism, Nankai University attracts and cultivates a number of global high-level talents. The overall team strength of the teachers with enthusiasm, professional skills, dedication to public interests and all-round capability is growing steadily.

As always, Nankai University calls for global talents! Nankai University and its colleges will offer competitive support to all kinds of talents in terms of remuneration package, scientific research fund, housing subsidy, research team building, postgraduate admission and international training to create a pleasant working and living environment for making better achievements.
